I am pleased to invite you to the 2nd International Conference on Sustainable Chemical and Environmental Engineering (SUSTENG 2023), which will be held in Limassol, Cyprus, between 14th to 18th June 2023. You may participate in SUSTENG 2023 either with physical or virtual presence.

The conference aims to encourage the exchange of knowledge between academicians, scientists and engineers on hot issues and current developments in chemical and environmental engineering through sustainable perspective. The participants will have the opportunity to present their recent research findings on an extended spectrum of conference topics and be informed about new challenges, future trends, and technological innovations on sustainable processes following the principles of circular economy.

The conference is organized by the "Design of Environmental Processes Laboratory", of the School of Chemical and Environmental Engineering, Technical University of Crete and the Cyprus University of Technology.

The conference Chair
Petros Gikas
Professor
Head of the "Design of Environmental Processes Lab"
School of Chemical and Environmental Engineering
Technical University of Crete

SUSTENG 2023 Conference 14 - 18 June 2023

Registration is open!
Early-bird registration by 07 April 2023
Abstract submission by 31 March 2023

- All submitted abstracts will go through peer reviewing prior to acceptance.
- Selected publications will be published in Special Issues.
