

Dear friends and colleagues,

May I thank you all for your participation to the 4<sup>th</sup> International Conference on Sustainable Chemical and Environmental Engineering (SUSTENG 2025), which was held in Thessaloniki, Greece, between 1<sup>st</sup> to 4<sup>th</sup> September 2025, both physically and virtually.

The conference included 10 sessions, while 5 keynote lectures were also given. During the conference, 87 abstracts were presented, out of which 66 were oral presentations, while the remaining 21 were posters. A total of 105 participants attended the conference.

Soon we will publish the conference proceedings in a book with ISBN number, while we are expecting the submission of your manuscripts to our Special Issue Waste and Biomass Valorization (Springer). Please note that you are allowed to submit more than one manuscript to the above Special Issue.

May I also grab the opportunity to thank our sponsors (Thalis, Anelixis Development Consultants S.A., Pangea, Association of Hellenic Plastic Industries and Klinakis S.A. for their valuable contribution to the conference.

Sincerely,

The conference Chair

**Petros Gikas**

Professor

Head of the "Design of Environmental Processes Lab"  
School of Chemical and Environmental Engineering  
Technical University of Crete
