1st Announcement & Call for Abstracts

The Sustain-COAST and MEDSAL PRIMA Projects are glad to release the 1st Announcement and the Call for Abstracts of the Common International Conference on “**Integrated Groundwater Management of Mediterranean Coastal Aquifers**”, taking place in Chania, “Grand Arsenal” Hall, (Akti Enoseos & Pl. Katechaki) from 27th to 30th September 2022.

Themes & Topics

1. Tools and methods for groundwater monitoring at coastal aquifers (ICT tools, multi-probe sensors, web-GIS applications, integrated telemetric observatories)
2. Tools and methods for quantifying groundwater salinization and/or overall quality assessment (hydrogeology, hydrogeochemistry, environmental isotopes, monitoring, modelling, artificial intelligence and geostatistics)
3. Pollution migration in dependent ecosystems (hydraulically interconnected surface-groundwater bodies)
4. Assessment and modelling of coastal aquifer susceptibility to salinization and/or other pollution
5. Numerical flow and transport modelling for groundwater assessment and sustainable management of coastal aquifers
6. Best practices and innovative technologies for sustainable water management/Sustainable actions to avoid groundwater depletion
7. Water governance, conflicts and stakeholder analysis
