

**Constantinos V. Chrysikopoulos**

Professor

School of Chemical and Environmental Engineering  
TECHNICAL UNIVERSITY OF CRETE, 73100 CHANIA, GREECE  
(+30) 28210-37797 [phone]  
(+30) 28210-37847 [fax]  
cvc@enveng.tuc.gr [e-mail]

**EDUCATION****Ph.D.:** Civil Engineering (Environmental Engineering & Science), 1991

Dissertation Title: "Solute transport in porous media: Investigation of well-to-well recirculation and analysis of spatially-variable retardation"

Dissertation Advisors: Paul V. Roberts &amp; Peter K. Kitanidis

Minor: Petroleum Engineering

Minor Advisor: Henry J. Ramey, Jr.

STANFORD UNIVERSITY

**Engineer Degree:** Civil Engineering (Geothermal Program), 1986

Thesis Title: "Chelated indium activable tracers for geothermal reservoirs"

Thesis Advisor: Paul Kruger

STANFORD UNIVERSITY

**Master of Science:** Chemical Engineering, 1984

STANFORD UNIVERSITY

**Bachelor of Science:** Chemical Engineering, 1982

UNIVERSITY OF CALIFORNIA, SAN DIEGO

**ACADEMIC EXPERIENCE**

(2013– ) PROFESSOR, School of Chemical and Environmental Engineering, Technical University of Crete, Greece.

(2004–13) PROFESSOR, Department of Civil Engineering, University of Patras, Greece.

(2001–04) PROFESSOR, Department of Civil and Environmental Engineering, UC Irvine, USA.

(1996–01) ASSOCIATE PROFESSOR, Department of Civil and Environmental Engineering, UC Irvine, USA.

(1991–96) ASSISTANT PROFESSOR, Department of Civil and Environmental Engineering, UC Irvine, USA.

(1990–91) POSTDOCTORAL FELLOW, Department of Civil and Environmental Engineering, Stanford University, USA.

**GUEST EDITOR**[3] Guest Editor in special issue on: Advances in Pollutant Transport in Critical Zone Environments, *Frontiers in Water*, 3:693102, doi:10.3389/frwa.2021.693102, 2021.[2] Guest Editor in special issue on: Fate and Transport of Biocolloids and Nanoparticles in Soil and Groundwater Systems, *Journal of Contaminant Hydrology*, 181, 2015.[1] Guest Editor in special double issue: *Transport in Porous Media*, 38(1/2), 2000.**ASSOCIATE EDITOR**[2] *Frontiers in Water – Environment Water Quality*, 2021–present.[1] *Clean Technologies*, 2019–present.

## MEMBER EDITORIAL BOARD

- [5] Water, 2018–present.
- [4] Frontiers in Water – Water Quality, 2018–2021.
- [3] Chemical Engineering and Nanotechnology, 2018–present.
- [2] J Multidisciplinary Scientific Journal, 2018–present.
- [1] International Journal of Earth & Environmental Sciences, 2015–present.

## TEACHING EXPERIENCE

### UC Irvine (1991–2004)

- Introduction to Fluid Mechanics (CEE170A: Undergraduate Course)
- Groundwater Hydrology (CEE172: Undergraduate Course)
- Stochastic Geohydrology (CEE272: Graduate Course)
- Transport Phenomena in Saturated Porous Media (CEE274A: Graduate Course)
- Transport Phenomena in Unsaturated Porous Media and Fractures (CEE274B: Graduate Course)
- Mathematical Methods in Engineering Analysis (CEE283: Graduate Course)

### U Patras (2004–2013)

- Water Quality (Undergraduate Course)
- Special Topics in Environmental Engineering (Undergraduate Course)
- Contaminant Transport in Porous Media (Graduate Course)

### Technical University of Crete (2013–present)

- Wastewater Treatment (Undergraduate Course)
- Heat and Mass Transfer (Undergraduate Course)
- Contaminant Transport in Porous Media (Graduate Course)

### Hellenic Open University (2006–2018, 2020)

- Wastewater Treatment (Graduate Course)

## SELECTED RESEARCH EXPERIENCE

- (2019– ) Estimation of pharmaceuticals in municipal sewage.
- (2018– ) Use of nanoparticles against soil-borne plant pathogens.
- (2012– ) Fate and transport of biocolloids and nanoparticles in groundwater.
- (2012–15) Investigation of the consequences of CO<sub>2</sub> leakage on the quality of potable groundwater and aquifer properties.
- (2011–14) Interaction between biocolloids and clays under various static and dynamic conditions.
- (2010–12) New methods for *in situ* concentration measurements.
- (2010–11) Degradation of PAHs and inactivation of biocolloids by high frequency ultrasound.
- (2009–12) Theoretical and experimental investigation of the co-transport of biocolloids and clays in water saturated porous media.
- (2006–10) Groundwater contamination by viruses during infiltration of recycled water. Removal of biocolloids suspended in reclaimed wastewater by injection in fractured aquifers.
- (2005–08) Reduction of environmental pollution with the employment of solar powered reactor for anaerobic wastewater treatment.
- (2004–07) Acoustically enhanced contaminant and colloid migration in porous media.
- (2001–06) Field-scale investigation of virus fate and transport during aquifer recharge with recycled water.
- (1999–05) Investigation of the effects of acoustic pressure waves in aquifer remediation and mobilization of entrapped organic liquids.
- (1997–04) Modeling the transport of polydisperse colloids in fractures with uniform as well as spatially variable aperture.
- (1997–03) Fate and transport of viruses in unsaturated porous media, accounting for soil moisture fluctuations. Development of analytical models for virus adsorption and inactivation in unsaturated porous media.

- (1995–02) Experimental determination of dissolution kinetics of single- and multi-component nonaqueous phase liquid pools in saturated three-dimensional porous media. Development of mass transfer correlations applicable to dissolving nonaqueous phase liquid pools in saturated porous media
- (1992–97) Modeling the transport of viruses in physicochemically heterogeneous multidimensional porous media, accounting for first-order inactivation of suspended and adsorbed (or filtered) viruses with different inactivation constants, and nonequilibrium reversible adsorption which is applicable to viruses behaving as solutes or irreversible filtration which is suitable for viruses behaving as colloids.
- (1992–95) Modeling of contaminant transport in saturated multi-dimensional fractured media in the presence of colloids, with emphasis on the effects of spatially variable fracture aperture.
- (1991–94) Mathematical modeling of contaminant migration from single- and multi-component nonaqueous phase liquid pools in multi-dimensional, saturated, homogeneous porous media.
- (1990–91) Atmospheric dispersion modeling of volatile organic emissions from aeration of contaminated groundwater treatment facilities, with emphasis on the effects of wind velocity gradients close to the ground and the magnitude of eddy diffusion in the boundary layer as well as the stability of the atmosphere.
- (1988–90) Development of an analytical solution of the one-dimensional stochastic advection-dispersion model that relates the ensemble solute concentration to the statistics of a stationary, spatially-variable retardation factor. Analysis of the impact of spatially-variable sorption on solute movement and spreading in porous media. Investigation of the macroscopic behavior of sorbing solute transport in three-dimensional formations with spatially-periodic geochemical characteristics and velocity field.
- (1986–88) Pilot plant operation for *in-situ* biotransformation and mineralization field tests of chlorinated solvents. Development of a solute transport model incorporating well-to-well recirculation. Exploration of parameter estimation techniques for solute transport in porous media.
- (1984–86) Identification of activable tracers with good activation analysis sensitivity retaining most of the advantages of radioactive tracers without health or environmental risk and low natural background concentration for groundwater and hydrothermal studies; evaluation of their thermal stability and sorption characteristics.

## AWARDS AND HONORS

- UCOWR Best Dissertation Award, as Research Advisor to Youn Sim, 1998
- UCI Pregraduate Mentorship Award, as Research Advisor to Olga Reyes, 1997
- UCI Faculty Career Development Award, 1996
- UCI “Celebration of Teaching” Undergraduate Teaching Award, 1996
- UCOWR Best Dissertation Award, as Research Advisor to Assem Abdel-Salam, 1996
- CEE Outstanding Teaching Award, 1995
- UCI Research Faculty Fellowship, 1993, 1995
- Leon Reynolds Foundation Fellowship, 1990
- Marx Moreno Foundation Fellowship, 1989
- San Jose Branch ASCE Award, 1987

## UNIVERSITY SERVICE

### (a) Major Activities at University of California Irvine (UCI)

#### Campus (UCI):

Campus Delegate to the Universities Council on Water Resources, UCOWR (1995–2000)  
 Campus Fulbright Committee, (1998–1999)  
 Representative to Academic Senate Assembly (1995–1997)

#### School of Engineering:

Budget and Planning Committee, member (Fall 1998)  
 Committee on Applied Mathematics, member (Fall 1992)  
 School of Engineering Faculty & Executive Committee, Secretary (1995–1996)  
 School of Engineering Graduate Studies Committee, Chair (1996–2000)

#### Department of Civil and Environmental Engineering:

ABET Committee (2001–2004)  
 Computer Committee, Chair (1992–1993)  
 Computer Committee, member (1993–1997)  
 Committee on Teaching Quality, Chair (1997–2000)  
 Committee on Teaching Quality, member (1996–1997)  
 Environmental and Water Laboratory Committee, member (1995–2004)  
 Graduate Advisor (1996–2000)  
 Graduate Studies Committee, member (1994–2004)  
 Search Committee for Environmental Faculty Position, member (1995–1996)  
 Search Committee for Environmental Faculty Position, member (1996–1997)  
 Search Committee for Fund Administrator AA-I, member (Fall 1997)  
 Search Committee for Fund Administrator AA-III, member (Winter 1998)  
 Search Committee for Structural Engineering Faculty Position, member (1997–1998)

### (b) Major Activities at U Patras:

Director of UPeel - University of Patras Environmental Engineering Laboratory (2004–2013)  
<http://www.upeel.civil.upatras.gr/>  
 Coordinator of Biomet network - Fate and Transport of Biocolloids in Environmental Systems (2009–2013)  
<http://biomet.upatras.gr/>

### (b) Major Activities at Technical University of Crete (TUC):

Member of the Research and Innovation Council – Region of Ionian Islands. Μέλος στο Περιφερειακό Συμβούλιο Έρευνας και Καινοτομίας - Ιονίων Νήσων (ΠΣΕΚ-IN) (2018– )  
 Director of TUCeeL – Technical University of Crete Environmental Engineering Laboratory (2013– )  
 President of Biomet network - Fate and Transport of Biocolloids in Environmental Systems (2013–14)  
<http://biomet.upatras.gr/>

## RESEARCH FUNDING

- EF21 “Innovative and Sustainable Groundwater Management in the Mediterranean”, PRIMA, Acronym: InTheMED, Project coordinator: Dr. Jaime Gomez-Hernandez, 2020–2022, Co-PI.
- EF20 “Preventing and remediating degradation of soils in Europe through land care”, EUROPEAN UNION’S SEVENTH FRAMEWORK PROGRAMME FOR RESEARCH, TECHNOLOGICAL DEVELOPMENT AND DEMONSTRATION (FP7-ENV-2013-two-stage, No. 603498), Acronym: RE CARE (<http://recare-project.eu>), Project coordinator: Dr. I. Tsanis, 2013–2018, Subcontract Contributor.
- EF19 “Fate and transport of biocolloids and nanoparticles in groundwater and effects of polluted water on public health”, HELLENIC MINISTRY OF NATIONAL EDUCATION AND RELIGIOUS AFFAIRS: ARISTEIA I (No. 1185), Acronym: BioNFate (<http://tuceel.tuc.gr/bionfate>), Project coordinator: Dr. C.V. Chrysikopoulos, 2012–2015, PI (500,000 €).
- EF18 “Geomechanics and environment of CO<sub>2</sub> geological storage”, HELLENIC MINISTRY OF NATIONAL EDUCATION AND RELIGIOUS AFFAIRS: THALIS, Project coordinator: Dr. E. Papamichos (Aristotle University of Thessaloniki), 2012–2015, Co-PI (521,740 €).

- EF17 “Inactivation and transport of biocolloids in porous media”, HELLENIC MINISTRY OF NATIONAL EDUCATION AND RELIGIOUS AFFAIRS: HERACLITOS II Project, Grant No. 284, Project coordinator: Dr. C.V. Chrysikopoulos, 2011–2014, PI (45,000 €).
- EF16 “Study of virus (bacteriophage) transport in saturated and unsaturated aquifers”, University of Patras, Research Committee, “K. Karatheodori” Project, 2007–2009, PI (24,000 €).
- EF15 “Integrated actions in order to protect coastal areas from anthropogenic pollutions and for groundwater restoration by reversing the seawater intrusion in coastal aquifers,” INTERREG IIIA Greece-Italy, 2006 - 2008, Specific theme: Protection of coastal aquifers from seawater intrusion: PRIMAC (<http://primac.ba.cnr.it>), Project coordinator: Dr. Ing. C. Masciopinto, Co-PI, (932,000 €).
- EF14 “Investigation of Groundwater Contamination by Viruses During Infiltration of Recycled Water: Laboratory and Field Experiments,” HELLENIC REPUBLIC MINISTRY OF DEVELOPMENT: GENERAL SECRETARIAT FOR RESEARCH & DEVELOPMENT, 2006–2008, PI (60,000 €).
- EF13 “Reduction of Environmental Pollution with the Employment of Solar Powered Combustion of Industrial Waste,” HELLENIC MINISTRY OF NATIONAL EDUCATION AND RELIGIOUS AFFAIRS: ARCHIMEDES 2, 2005–2007, Co-PI (75,000 €).
- EF12 “Development of Methodologies for Rapid Prediction and Evaluation of River Contamination,” HELLENIC MINISTRY OF NATIONAL EDUCATION AND RELIGIOUS AFFAIRS: PYTHAGORAS 2, 2005–2007, Co-PI (50,000 €).
- EF11 “Acoustically Enhanced Remediation of Aquifers Contaminated with Nonaqueous Phase Liquids,” NATIONAL SCIENCE FOUNDATION, October 2003 – December 2006, Sole PI (\$100,000).
- EF10 “Application of Acoustic Pressure Waves in Aquifer Remediation and Mobilization of Entrapped Organic Liquids,” UNIVERSITY OF CALIFORNIA WATER RESOURCES CENTER, 2000–2002, Sole PI (\$56,000).
- EF9 “Bridge Funding Award,” UNIVERSITY OF CALIFORNIA IRVINE, 1999–2000, Sole PI (\$26,500).
- EF8 “Effect of Soil Moisture and Temperature Fluctuations on Fate and Transport of Viruses in the Subsurface,” UNIVERSITY OF CALIFORNIA WATER RESOURCES CENTER, 1997–1999, Sole PI (\$50,408).
- EF7 “Dissolution Kinetics of Single and Multicomponent NAPL Pools in Saturated Three-Dimensional Porous Media,” ENVIRONMENTAL PROTECTION AGENCY, 1995–1999, PI (\$345,368).
- EF6 “Effects of Physical and Geochemical Heterogeneity of Porous Media on Macroscopic Virus Transport,” UNIVERSITY OF CALIFORNIA WATER RESOURCES CENTER/NATIONAL WATER RESEARCH INSTITUTE, 1995–1997, Sole PI (\$48,192).
- EF5 “Colloid Transport in Saturated Fractured Systems,” UCI FACULTY RESEARCH AWARD, 1995–1995, Sole PI (\$10,673).
- EF4 “Virus Transport in Multidimensional Geochemically Heterogeneous Porous Media,” UNIVERSITY OF CALIFORNIA WATER RESOURCES CENTER, 1994–1995, Sole PI (\$5,000).
- EF3 “Effective Parameters for Flow in Saturated Heterogeneous Porous Media with Spatially Variable Hydraulic Conductivity and Specific Storage,” UNIVERSITY OF CALIFORNIA, IRVINE RESEARCH FACULTY FELLOWSHIP, 1993–1994, Sole PI (\$10,000).
- EF2 “Deposition Mechanisms and Long-Time Scale Factors Influencing Virus Transport in Porous Media,” NATIONAL WATER RESEARCH INSTITUTE/ ENVIRONMENTAL PROTECTION AGENCY, 1993–1994, Co-PI (\$137,000).
- EF1 “Dissolution Kinetics of NAPL Pools in Saturated Porous Media,” NATIONAL SCIENCE FOUNDATION, Subcontract through GEORGIA INSTITUTE OF TECHNOLOGY, 1992–1992, Sole Contributor (\$20,000).

## PERSONAL DATA

Date of Birth: March 4, 1960

Place of Birth: Jablonec nad Nisou, Czech Republic

Family Status: Married with one child

Nationality: Greek and USA
